I have kept up to date and informed regarding the Microsoft settlement and the Tunney Act. I would like to express my opinion that Microsoft does appear to act in a non-professional, anti-competitive manner. I feel that the basis for the stronghold of American capitalism is the ability for everyone to improve the status quo and offer a better product or service than the current provisions. Microsoft does not give that ability to its competition, and therefore the laws in place regarding anti-trust and monopolies must be abided by.
